Triangle of Care Policy

The purpose of our Triangle of Care policy is to ensure that Albert Village Nursery along with other settings, such as another nursery or childminding setting should work together to ensure continuity of care for all children. The sharing of information is vital to the wellbeing of all children and is also seen as 'good practice' between professionals. Albert Village Nursery prides itself on the relationship built up between professionals and parent/carers which as the Government indicates is vital to the holistic development of children.

In order to achieve our Triangle of Care policy we will:

- Share information with any professionals involved with the child and family as required.
- Uphold our 'open door' approach so that parents/carers always have an opportunity to share information with us.
- Share information with other settings, such as stages of development, behaviour concerns or areas of progression.
- Speak to all nursery staff about any issues to ensure continuity of care.
- Share information with the child's next setting, such as school to enhance the transition process.
- Always make ourselves available in order for information to be shared.
